# NOT JUST TOOLS — BUILD, PRESENT, SELL, DELIVER.

## PROMPTING

Instruction design & prompt operating systems.

## AGENTS

Blueprinting, guardrails & iteration.

## RAG & APIS

Retrieval pipelines & model integration.

## AUTOMATION

n8n flows with human-approved checkpoints.

## CAPSTONE

Client delivery, demo & portfolio.

POWERED BY XCELLENCE CELL

# THE INDUSTRY-SKILLS ENGINE OF THE PROGRAM.

Xcellence Cell aligns every learner's output with real industry expectations — turning AI skill into communication, sales confidence, and client-ready execution.

**Communication & sales confidence**

**Client approach & market exposure**

**Portfolio proof & live demos**

**Competition-based learning**

LEAD INSTRUCTOR

# DR HARSHVARDHAN PUROHIT.

Founder & CEO, SIN Technologies · Director, SIN School of AI India. His vision drives the program: students must not only understand AI tools — but build, present, sell, and deliver real solutions.

**B.Tech Gold Medalist in AI & ML — across all of Rajasthan**

**Founder & CEO — SIN Technologies**

**Director — SIN School of AI India**

# A RECOGNIZED NAME IN RAJASTHAN'S AI ECOSYSTEM.

## RAJASTHAN TOP 10 STARTUPS

Featured among the state's leading ventures.

## SPJIMR TOP 10 - JODHPUR

Top 10 startups of Jodhpur, SPJIMR.

## ISTART RAJASTHAN INCUBATEE

Incubated under the iStart Rajasthan initiative.

## STARTUP INDIA - SELECTED

Recognized under the Startup India Program.

DPIIT-Registered

ISO 9001:2015 Certified

Founded 2024 · Jodhpur

# THREE PHASES. ONE CAPSTONE.

PHASE 01

Days 1-9

## FOUNDATIONS & FIRST AGENTS

---

- Agentic AI orientation
- Prompt engineering command
- Agent blueprinting & guardrails
- Building agents with Antigravity
- No-code AI product building
- GitHub & portfolio proof

PHASE 02

Days 10-14

## RAG, APIS & AUTOMATION

---

- RAG foundations & pipelines
- RAG evaluation & trust
- APIs & Gemini integration
- Automation with n8n
- Human-approved workflows

PHASE 03

Days 15-21

## BUSINESS & CAPSTONE

---

- Sales intelligence with agents
- Client approach & discovery
- Live client problem framing
- Timed agent creation sprint
- Hackathon build day
- Capstone showcase & career

# WHERE SKILL IS FORGED **UNDER PRESSURE.**

## THE PROMPT RECKONING

Battle prompts under pressure — win with clarity, context, control.

## CEO: CRISIS COMMAND

Run the room, redesign the offer, make executive calls with AI.

## MARKET DOOMSDAY

Turn ideas into market-ready pitches with live client exposure.

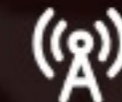

## AGENT FORGE: COUNTDOWN

Build a working AI agent before the timer hits zero.

## FINAL BUILD PROTOCOL

A high-intensity build sprint for deployable, real-workflow demos.

## SIGNAL UPRISING

Present, persuade, and teach an AI use case like an industry speaker.

# WHAT EVERY BUILDER WALKS AWAY WITH.

---

**01** Design and test prompts, agent instructions, and evaluation rubrics.

---

**02** Build practical agents with Antigravity-style and no-code product thinking.

---

**03** Use GitHub for documentation, collaboration, and portfolio evidence.

---

**04** Apply RAG, API integrations, and automation pipelines.

---

**05** Approach clients, frame problems, pitch solutions, prepare delivery briefs.

---

**06** Complete a capstone AI agent system with demo, docs, and roadmap.

---
